If Americans are Wantonly Killed Pres. Taft Will Rush Message to Congress Asking Authority to Send Troops Across Border

FIGHTING RESUMED TODAY IN STREETS OF CAPITAL

Federals Preparing to Raze Four Solid City Blocks with Dynamite—Citizens Panic Stricken Pray That Hos- tilities May Soon Cease— President Madero Sends Another Ultimatum to General Diaz Who Replies With Cannon Balls.

Washington, Feb. 14.—President Taft declared to close advisers today that only one thing could force him to ask Congress to intervene in Mexico.

If the Madero or Diaz forces should turn upon Americans merely because they are Americans, or foreigners, Mr. Taft let it be known that he would rush a special message to Congress in thirty minutes time.

He does not regard the killing of a few Americans in the course of the battle as a cause for war, but looks upon such casualties as an unavoidable result and believes that the proper authorities should be held liable for damages.

If, however, the President were to hear that Americans were being wantonly killed and found Congress taking its week end recess, he would not hesitate to send an expeditionary force from the battleships at Vera Cruz and Tampico. The President plans to follow this information immediately with a message setting forth conditions, showing what he had done and asking authority to send United States troops across the border.

It was understood that the cabinet is in complete accord with the President's attitude, as it was expressed in his talk with callers today.

Mexico City, Feb. 14.—The sixth day of fighting in the streets of the Mexican capital brought no diminution in the fierceness of the battle.

Up to noon no appreciable gain had been made by either side. The hundreds of thousands of terror-stricken non-combatants have grown indifferent as to who wins, but all in the city uttered a prayer this morning that one side or the other might bring to a termination the terrible artillery duel which has wrecked the city and caused so much loss of life and misery.

Grim determination was expressed by both sides. Expert observers declared that Diaz had the advantage of position in some respects but that the federal commander had an immense superiority in numbers.

President Madero last night received more reinforcements and further troops are expected today. The federal troops were posted during the night at all points considered of strategic advantage, and General Huerta declared today that the effort to break the rebel lines which he had promised yesterday would be forthcoming today.

The government was reported during the morning to be preparing to raze with dynamite four solid blocks, consisting mostly of residences, just east of the rebel position between the arsenal and the national palace to obtain a better sweep for the heavy fire from the federal artillery.

A constant stream of refugees, most of them Mexican citizens, was observed carrying bundles and hurrying toward the suburbs from the densely populated district between the arsenal and the national palace as soon as the firing became intense. In many churches, special services were held by the clergy for the restoration of peace to the capital. Thousands of refugees met in the old edifices and joined in the prayers at the same time trusting no little to the heavy walls for protection.

President Madero this morning sent another ultimatum to Felix Diaz demanding his surrender and the reply came in the shape of a number of cannon balls from the insurgents' biggest guns.

The rebels opened the battle today at 5:45 when they started firing in the direction of the federal's concentration point. It had been expected that the federals would attack first. The first salvo from the rebel lines was followed quickly by a series of others in rapid succession. Then the machine guns and rifles began their whirl and patter, the fire being concentrated where government troops were gathering.

The federal guns did not delay in making vigorous reply. By 7 o'clock the firing had settled into a steady fusillade. All around the arsenal the flash of the field guns and quick

in small consignments, and it was said that they were running short. The fifth day of the battle began at 8 o'clock, a battery of federal artillery opening fire on the arsenal, but, although the bombardment was kept up without cessation for an hour or more, it had no appreciable effect on the rebel defenses.

That Diaz had prepared for the threatened overwhelming movement by the government, which Madero promised would be carried through was shown by the fact that he had stationed sharpshooters on the roofs of adjoining buildings, had dispatched a force outside his

Who Was Shot in the Revolt in Mexico.

lines to the west of the city and had placed his heaviest guns in positions commanding all the approaches to his stronghold.

Lieutenant Colonel Rubio Navarrete, the commander of the federal artillery, was slightly wounded during the fighting. He remained, however, on the firing line.

Several noncombatants were killed.

General Huerta, commanding the federals, had promised to rush the fortifications of the rebels, but he elected instead to employ his artillery from the various points of vantage. Only once during the early part of the day did the infantry come into action.

During the heavy shelling of the palace Diaz apparently moved some of his forces to the southeast of the city, and shortly after 12 o'clock the palace was made the target of both shells and rifle fire from the district. Coincidentally the rebels succeeded in extending their zone of activity in other directions.

The rebel fire towards the palace was intended not to bring about its surrender, but had for its purpose also the clearing of the intervening high buildings of machine guns and rifles and of silencing the federal battery operating in San Juan Letran street, at a point midway between the arsenal and the palace.

This shelling wrought havoc among the buildings in that section of the city. The American Club was wrecked. The interior of this building was completely wrecked. Of forty Americans within it at the time several were killed.

NATIONAL REGISTER OFFICIALS

Found Guilty by Federal Jury Which Deliberated Ten Hours

50 ACTUAL TRIAL DAYS

Twenty-Nine Defendants are Convicted—Expense of Case to Cash Register Company Half Mil- lion Dollars.

Cincinnati, Feb. 14.—Guilty as charged in all three counts of the indictment, was the verdict rendered here at 11:50 last night by the jury trying the case of John H. Patterson and the 28 other officials or former officials of the National Cash Register company of Dayton, who were charged by the government with violating the criminal section of the Sherman anti-trust act.

The defendants were: John H. Patterson, Dayton, president; Edward A. Deeds, Dayton, vice president; George E. Edgerton, Dayton, secretary; William F. Bippus, treasurer; William H. Mussey, Dayton; William Plumm, Dayton; Alfred A. Thomas, Dayton, attorney; Robert Patterson, director; Thomas J. Watson, assistant sales manager; Alexander C. Harrod, sales manager; Frederick S. High, district manager, Boston; Phineas Eves, district manager, San Francisco; Arthur A. Wentz, district manager, 381 East Town street, Columbus; George E. Morgan, Dayton; Charles T. Falmesley, Chicago; Charles A. Snyder, Elizabeth, N. J.; Walter Cool, Denver; Myer N. Jacobs, Pittsburgh; Mont L. Lasley, Detroit; Earl E. Wilson, Los Angeles; Jonathan B. Hayward, patent attorney, New York; Alexander W. Sinclair, New York; John J. Range, Washington; M. G. Keith, New York; William Cummings, Brooklyn, Ill., not at trial; J. C. Laird, Toronto; W. C. Howe, San Francisco; E. H. Epherson, Minneapolis; Edgar Parks, dismissed, New York.

After thanking the members of the jury and informing them that in case they were ever called to jury duty again in this court they would be excused upon request, Judge Howard Hollister dismissed the jury and adjourned court until today. He also notified the attorneys for the defense that any action that they desired to take that was just would be allowed to come before the court at the proper time.

The jury deliberated on the case for almost 10 hours and there were only a few of the defendants and spectators in the court room when Foreman Edward C. Morrow announced the verdict.

President Patterson when asked for a statement said:

"In view of the civil litigation against the National Company, I desire not to make a statement at this time."

The indictments were returned February 22, 1912, after special agents of the government had put in many days in the search for evidence.

The present trial began November 19 and has occupied about 50 actual trial days.

The total expense to the Cash Register company, including loss of time, is estimated at little less than \$500,000.

President Patterson and each of the defendants, with one exception, have been in court every day. The government expense has been estimated at about half as much.

The indictments named 30 men, but Edgar Park was dismissed recently by Judge Hollister upon the representation that he was in no way connected with the company in the last three years, the time named in the indictments.

Each of the 29 counts carries with it a maximum penalty of \$5,000 fine and a sentence in a common jail of not more than 12 months, thus bringing the maximum sentence for each man up to \$15,000 fine and 36 months in jail.

That the case will be appealed was indicated when attorneys for the defense attempted to make a motion for the dismissal of the jury. Judge Hollister assured them that any motions could be made later.

During the trial, Mr. McPherson, who was not in the court room when the verdict was returned, was notified by telephone and said that he was elated and that it was a great victory for the government.

No statements were issued by the attorneys for the defense other than that all legal methods would be used in an effort to set aside the verdict and in the last resort to appeal the case.

This is the second criminal case successfully prosecuted by the government under the anti-trust law. The first victory in a criminal case was scored in the Turpentine Trust case, where federal sentences were imposed. Error proceedings are now pending in the United States supreme court.

***** GIVE THIS TO NEWARK—"ENTHUSIASM!" *****

By Chalmers L. Peascent.

Enthusiasm in your city is essential. There must be loyalty, energy and friendliness in this enthusiasm.

Some cities have peculiar individuals—inactive, sulky—no animation—no desire to be agreeable—just cranky, grouchy.

These peculiar individuals never made any city successful.

On the other hand, this city has men who are bubbling over with the boosting spirit. They advertise it by their good nature. They give the city new life—because they are full of life—they make a big impression on the outside world with their enthusiasm and earnestness.

The boosters in this city are its advertisements that pay big returns. Give this town some enthusiasm—it won't cost you much and it is worth more to the success of Newark than you can ever realize.

ARREST OF MOTHER JONES MAY CAUSE THE STRIKING MINERS TO RETALIATE

Charleston, W. Va., Feb. 14.—Anxiously awaiting confirmation of reports which reached here early today that striking miners were preparing to retaliate for the arrest last night of "Mother Jones" and others of their leaders, the military authorities were prepared to send additional troops into the Paint Creek country.

Six companies have been on duty here since Tuesday morning. Four more were ordered out last night and the commander of every organization in the West Virginia national guards has completed preparations to move at an hour's notice it is said.

While no decision has been reached it was said today that the boundaries of the martial law zone may be extended to cover region north of the Kanawha river where yesterday's proclamations were said to have been posted demanding the lives of Gov. Glasscock and other leaders in the state government.

The arrest of Mother Jones who has been among the miners of that section for months has caused them and reports of secret meetings have come to the capital today from many towns and camps in the district.

When the two Parkersburg companies of infantry arrived here this morning word was given out that they would be held in the city to guard the capital. A few soldiers were scattered through the corridors of the state house, the others being under arms within a few blocks of the scene of possible trouble.

The military from Sutton and Morgantown were expected to reach the strike section during the day.

Mother Jones and other leaders were taken to Paint Creek junction last night and will be tried today.

LEGISLATORS ARE INDICTED FOR BRIBERY

Charleston, Feb. 14.—The special grand jury summoned by Judge Black to consider the charges of bribery in connection with the United States Senatorial campaign this afternoon, returned five indictments. They are: Delegates W. H. Hill, H. S. Ashby, S. U. G. Rhodes and Rath Duff and Senator B. A. Smith.

The men were charged with feloniously receiving bribes. There were four counts in each indictment. They are also indicted for misdemeanor, but the exact charge was not made public. Intense interest centered on the next report, which may not be made for several days. The men indicted today were arrested last Tuesday afternoon after they had come from a room where it was alleged they had been paid for voting for a given candidate for United States senator.

SPECIAL JURY TO INVESTIGATE BRIBERY CHARGE

Charleston, W. Va., Feb. 14.—The special session of the Kanawha county criminal court called by Judge Black to inquire into the charges of alleged bribery in connection with the United States Senatorial campaign, convened here today.

The utmost care was taken to keep from the public the names of the men who have been called for duty on the special grand jury. Sensational stress concerning the hurried departure from the capital of men who have been prominent in the battle for senator, was one of the developments of the day.

There were hints that entirely unsuspected and heretofore unexplored fields would be entered by the prosecutor before the grand jury makes its report.

SENATE PASSES MEASURE

Appropriating \$215,000 to Meet Expenses of Emergency Board

AIMED AT CHIEF CARTER

If Bill Passes It Will Pave Way for His Discharge By Mayor Karb of Columbus.

Columbus, Feb. 14.—The senate late Thursday passed the bill appropriating \$215,000 to meet expenses of the emergency board. There were 12 votes against it.

Senator Hudson particularly criticized the allowance of \$26,452 to the state board of public works for repairs to culverts and a spillway and for filling barrow pits.

The entire canal system isn't worth that amount," said Hudson.

Hudson also criticized the payment of \$1000 for postage for correspondence of school of officers of the Ohio National Guard.

"I call that item to the attention of Senator Gregory's prob' committee," said Hudson.

Following the onslaught made on the \$215,000 emergency appropriation in the senate Thursday, Representative Robert P. Black of Hamilton county felt certain Friday that his bill to curtail the powers of the emergency board to plunge the state into debt would receive cordial support. Administration leaders are expected to get behind the measure.

The Black bill restricts the nature of "emergency appropriations" and makes the state auditor final judge of such expenditures.

A bill that would expressly permit Mayor Karb to fire Chief of Police Carter without further ado made its appearance in the senate Thursday evening under the chaperonage of Senator Jung of Cincinnati. The measure seeks to repeal Section 4381 of the general code, which allows appeal to the civil service commission and thus leaves in the statutes without conflict that section which gives the mayor the undisputed right to fire heads of sub-departments of the police and fire departments. Of course the bill would place all chiefs in the state at the mercies of their mayors.

Columbus, Feb. 14.—All defective children hereafter would be given in to the care of the state board of administration instead of the various hospitals and correctional institutions under provisions of a bill passed by the house today. It would make the state government the guardian of all defective children and provide for a new state institution located in Columbus for the receiving and classification of defectives.

HOUSE FOR THE DEATH PENALTY

It is not likely any action to change the law providing for the punishment of persons convicted of murder in the first degree will be taken at the present session of the assembly, if the vote by which the Kennedy bill was defeated in the house of representatives yesterday indicates the attitude of a majority of its members toward the issue.

Representative Kennedy's measure would make the penalty for murder in the first degree imprisonment in "penitentiary for life," unless the jury trying the accused recommends "without mercy," in which case the punishment would be death. The law now reads that punishment shall be death unless the jury recommends mercy.

A valiant fight for the passage of the measure was waged by Representative Kennedy, who said one of the chief objects was to place the burden of fixing the death penalty upon the jury, and to make jurors consider cases more seriously. He spoke for several minutes in favor of the bill and answered many questions.

In answer to one Mr. Kennedy denied the measure was "a foolish capital punishment," but admitted that "it would be a step to a great extent." Representative Horvath of Meigs county opposed the measure.

same number in the Sabbath school, on last Sabbath it had 100 members, and 113 in the Sabbath school. The present temporary structure, which is 24 x 30 feet, was thought adequate at the time it was built, for the next two years when a new and permanent church edifice was intended to be built, but it now seems necessary to extend the present structure, just as soon as the good weather opens, so that at least 100 more persons can be accommodated. On last Sabbath one class of young ladies taught by Miss Jennie Martin of 38 North Tenth street, had 26 members present, and this has inspired other teachers. At the present rate of increase the school will reach 200 members by May 1.

HAND CAUGHT IN MACHINE; BADLY HURT

Rudolph Zesiger, a woodworker, at the A. G. Wirth company's plant, met with a serious accident about 2 o'clock Thursday afternoon. He was doing some work at a "jointer," a machine which has knives revolving at a terrific velocity, when his left hand struck one of them. The thumb was nearly torn off and part of the palm was badly lacerated.

Dr. J. G. Shirer was called and dressed the injury and has hopes of saving the injured digit, although it will be several weeks before Mr. Zesiger will be able to work.

RHEUMATIC
SUFFERERS
If you suffer from Rheumatism
and don't read this advice, then the
terrible disease must have robbed
you of your power to be fair to
yourself. Read it:
"I, John Barhorst, Justice of the
Peace of McLean township, Ft. Lor-
amie, Ohio, do certify that after
treatment by three doctors without
result, I have been cured of a very
bad case of Rheumatism by using
two bottles of RHEUMA. It is now
two years since I used this remedy
and I am still as well as ever. Pre-
vious to using RHEUMA I was a
cripple, walking with crutches, and I
feel it my duty to let other sufferers
know what it will do. The result
seems almost miraculous to me."
Have advised RHEUMA to at least
a dozen persons, and each one speaks
as highly of it as I will answer for
any one suffering from the disease if
two-cent stamp is enclosed.—Mar.

HEALTH HINT FOR TODAY.
Instinct In Eating.
Appetite should be the guide to
what to eat. Serious injury re-
sults from interfering with the
normal exercise of the appetite
in many respects. We should
follow nature. We should al-
low the instinctive desire for
food the exercise within the
scope which reason teaches us
to be prudent. While harm
may be done by the suggestion
that we must be careful to avoid
harm from wrong eating, much
good can result from knowing
that we can select food wisely
and therefore good nutrition by
the exercise of reason—as, for in-
stance, in mastication. One can
decide to chew three times as
much as has been in the habit
of doing, and knowing that this
will improve nutrition is a source
of good suggestion, though the
practice should be reduced to a
habit requiring no special effort.
If we admit that reason should
not control in the selection of
food we must admit that it
should not control in the selec-
tion of thought; that we should
think what we like, good or bad.
Sanity and success lie in the
proper balance of the objective
and the subjective, reason and
instinct.

COLD FEET?
BEGY'S MUSTARINE Will Keep
Them Warm All Winter.
No more cold feet for you. Just rub
on BEGY'S MUSTARINE tonight and
your feet will be nice and warm for a
week, no matter how cold the weather.
Thousands use it to banish sore
throat, coughs, chest colds, stiff neck,
and earache overnight.
A 25-cent box of BEGY'S MUSTARINE
is better than 25 mustard plasters,
better than liniments, poultices or
hot water bottles. Just rub it on
feet, aches and aches, sore throat,
coughs, chest colds, stiff neck,
and earache overnight. It's the
same back and aches from rheumatism
and swollen or stiff rheumatic joints
at night. It won't soil, but
it will draw all aches from sore
aching feet and aching corns, bun-
ions and calluses. It's the best for chil-
dren and crossed feet, and remem-
ber, whatever it does, it does quickly.

PEAT DEPOSITS IN OHIO.
The presence of extensive peat de-
posits in Ohio is announced by the
State Geological Survey in Bulletin
No. 1, a volume of more than 400 pages
prepared by Dr. Alfred Dackowski,
of the State University. These beds
are widely scattered over the glacial
part of the state, extending as far
south as Montgomery county, but
the largest deposits are on or near
the watershed between Lake Erie
and the Ohio River. Peat is simply
vegetation that grew in swampy
places and on drying was covered with
water. Later it underwent partial
decomposition, changing to peat. It
is the first stages in coal formation.
There is no reason to believe, how-
ever, that Ohio's peat deposits will
be changed to coal.
The Bulletin contains many analyses
of the fuel and tests showing its
heat producing capacity. Numerous
maps indicate where the deposits oc-
cur and the Bulletin is in other re-
spects well illustrated. Every phase
of peat is discussed and it is safe to
state that the Bulletin contains the
most comprehensive presentation of
the subject that has yet been made
in this country.
Discussion during the past few
years as to the duration of our fuel
supply has called attention to peat, a
very important source of fuel in Eu-
rope. A national society for the sci-
entific study and in coming years
has been formed, and in coming years
as our coal supply grows smaller,
much will be heard of this fuel. In
fact, peat beds may be looked upon
as a fuel reserve that in time will
be as eagerly sought after as coal
is now.

WOMEN WON'T
TOLERATE
CATARRH
They Know Booth's Hyomei Will
Cure and They Use It In-
telligently.
How many women of refinement do
you see parading disfigured sym-
ptoms of catarrh before the world?
Not one in a thousand.
Women have patience; a great deal
more of it than men. Most of them
know that HYOMEI will banish cat-
arrh if used properly and they re-
gard what a genuine blessing it is to be
rid of such a vile disease.
People don't contract catarrh in a
day; they can't expect to get rid of it
in a day.
If you really want to free yourself
from that power of persistent catarrh
microbes set a HYOMEI outfit today
regularly and kill the germs.
There is no stomach dosing; the
directions are simple and easily fol-
lowed, a complete HYOMEI outfit in-
cluding pocket inhaler, \$1.00, extra
bottle of HYOMEI if afterward need-
ed 50 cents at druggists everywhere.
Paranoid for catarrh, coughs, colds.
Mail orders filled, charges prepaid by
Booth's Hyomei Co., Buffalo, N. Y.
Soothe catarrh free. Evans' drug
store guarantees it.

GOVERNMENT OF NEWARK
(By Prof. A. M. Schlesinger)
5. Why not Adopt the City Man-
ager Plan?
The other day Governor Cox men-
tioned the city manager plan in his
message to the legislature, and a
few days later the Chamber of Com-
merce of his home town placed their
stamp of approval on it for Dayton.
So it seems that a brand new idea in
city government is already taking
hold on charter-thinkers in Ohio.
The first thing to understand
about the city manager plan is that
it swallows the commission form
whole and then adds some striking
features. Like the commission
form, this plan views a city as a
large business corporation which
should be placed in charge of a
board of directors. Upon this prin-
ciple, both plans provide that a
small body of men should be elected
at large by the voters as a commis-
sion (or council), and all other city
officials should be appointed.
At this stage comes the point of
difference between the two plans.
The advocate of the city manager
plan recalls that the board of direc-
tors of a corporation controls affairs
through a general manager, and he
applies the same principle to the
commission of a city. He believes
that it is too cumbersome to have
five (or three) men constantly giv-
ing attention and acting upon public
affairs, especially when they may be
men without the special knowledge
required for solving difficult civic
problems. Therefore he says, the
commission should employ a general
business manager for the city who
is a specialist in his line and who
will have immediate charge of all
city affairs.
Under the city manager plan, the
commission (or council) passes all
ordinances, fixes the tax levy, ap-
points the civil service commission,
fixes all salaries, etc. The city man-
ager gives his entire time to city af-
fairs, sees that the laws and ordi-
nances are faithfully executed, recom-
mends administrative policies to
the commission, and appoints all
city officials with the consent of the
commission. The city manager is
appointed by the commission and is
responsible to them; for they may
recall him at any time. The com-
mission in turn is responsible to
the people for the conduct of the
city manager. Some people have
pointed to the fact that boards of
education manage the schools in
somewhat the same way through
superintendents of schools.
A candidate for city manager need
not be a resident of the city for
which he is chosen. As in the case
of school superintendents, it is de-
sirable to offer a substantial salary
and then search the country over
for the best fitted man for the po-
sition. For instance, Sumter, S. C.,
which has this form of government,
is advertising nation-wide for a city
manager, declaring that "the city
manager will hold office as long as
he gives satisfaction to the commis-
sion. There will be no politics in
the job, the work will be purely that
of an expert."
Of course, variations of the city
manager plan described here are
possible. Staunton, Va., has gone so
far as to employ a city manager in
connection with a "mayor and coun-
cil" government. Some people sug-
gest that it might be wise to per-
mit the city manager to have the
title of "mayor," but that is only a
detail. The voters may be given
the power of the initiative and re-
ferendum and the recall under this
plan as well as any other. Since it
is a business form of government,
non-partisan elections and primaries
will no doubt always be provided.
The city manager plan is in op-
eration in Sumter, S. C. The city
of Lockport, N. Y., with a popula-
tion of 18,000, is asking the legisla-
ture of New York for permission
to adopt a similar plan. A magazine
devoted to propagating the commis-
sion idea predicted recently, "The
end of 1913 will see one-tenth of the
people of the United States under
commission government. In five
years, commission government will
be on the wane in favor of the Sum-
ter city manager plan!"
(Prof. Schlesinger's series of ar-
ticles on municipal government will
be concluded tomorrow when the
Newark plan will be discussed.)

AMBITION
PILLS
For Nervous People.
Everyone can be helped with the
famous WENDELL'S AMBITION
PILLS, the great nerve tonic that
will put vigor, vim and vitality into
nervous, tired out, all in, despondent
people in a few days.
Anyone can buy a box for only
50 cents and Evans' Drug Store is
authorized by the maker to refund
the purchase price if anyone is dis-
satisfied.
Thousands praise them for gener-
al debility, nervous prostration, men-
tal depression and unstrung nerves
caused by over-indulgence in al-
cohol, tobacco or excesses of any kind.
As a brain food or any affliction
of the nervous system, WENDELL'S
AMBITION PILLS are unsurpassed
while for hysteria, trembling and
neuralgia they are simply splendid.
Everybody reads the Want Column.

ADMINISTRATOR'S SALE.
In pursuance of an order of the Pro-
bate Court of Muskingum county, Ohio,
I will offer for sale at public auction on
Tuesday, March 18, 1914,
At one o'clock p.m. on the premises of
the first parcel of land described in the
will of Pringleburg, Ohio, the fol-
lowing described five parcels of real
estate situated in the county of Mus-
kingum and lying in the State of Ohio:
First Parcel.—Situate in the County
of Muskingum and State of Ohio, and
in the township of Jackson and in the
village of Pringleburg, and known as
part of said tract, and being the same
in Elizabeth's addition to the village of
Pringleburg, as the same is designated
and delineated upon the recorded plat
of said village, and being the same
real estate conveyed to William T. Host
by Daniel L. Host and wife, by deed
recorded in Volume 11, page 100, of the
Book of Records of Muskingum county,
Ohio.
Second Parcel.—Situate in the town-
ship of Jackson in the County of Mus-
kingum, Ohio, and being a part of the
following described five parcels of real
estate, to-wit: A certain one-half section
of the southeast quarter of section
number eleven of U. S. Military
township, beginning at the northeast cor-
ner of said quarter section, and extend-
ing west on the boundary line of said
quarter section to the corner of Little's
addition, thence south along the east line
of Little's addition to the north corner
of land owned by the U. S. C. & S. L.
railroad company, thence easterly
along the boundary line of said quarter
section to the northeast corner of said
quarter section, north on the range line
to the place of beginning, containing
one-half section of land.
Also, the whole or a certain por-
tion of land adjoining the above and
being the west half of lot number five
of the northeast quarter of section
number eleven, township number eleven
north, range number eight, Military Land,
bounded as follows:
Beginning at the west line of said quarter
section, lot number five, and on the

EXCESSIVE SAFEGUARDS---
Are essential in the investment
of savings funds that you are
planning for the protection of
your old age, or as a provision
for the unexpected emergencies
that may arise in the future.
Many investments are good today, but may go wrong tomorrow,
next year, or five years hence. You cannot afford that kind for
money laid by to safeguard future years, to protect your family if
anything happens to you.
A savings account in the "Old Home" has thirty-two years of
proven reliability behind it as an assurance that here you do have
the benefit of safeguards not only ample, but actually excessive.
It pays to be absolutely safe.

ACTUAL BENEFITS ARE RECEIVED BY MANY PEOPLE

J. R. Coy Is Relieved of Long Standing Trouble By the New Tissue Builder.

Because certain medicines or doctors' prescriptions have failed to do you any good is no sign that you cannot be relieved, or that your doctor did not know what he was prescribing. Civilization in its advances has brought in its train new ailments, similarly science has brought new remedies.

It would be impossible for one man to keep track of these changes from day to day, so new remedies like Vin Hepatica have to be advertised by the million mouths of the press by publishing statements of those who have derived actual benefit. Take as an example, the case of J. R. Coy, who lives in the rear of 79 E. Main Street, Newark, Ohio who made the following statement:

"A few days ago, having a bad cold, it in turn making me most miserable on account of a long standing case of catarrh, I started out to get relief. Upon going in a drug store I was recommended by the proprietor himself to try Vin Hepatica. I did so and in a very short time I began to feel relieved. I thought that it was most remarkable and that the good results which I was getting would be only temporary, however, I have continued to improve and am now feeling better than I have in many years."

"I am quite positive if I continue for a short time my relief will be quite permanent. I highly recommend this preparation."

There are many symptoms to these conditions that this great tissue builder can relieve, in fact any one of the following may denote affections of the mucous membrane: inactivity, costiveness, belching of wind, bad breath, night sweats, that tired feeling, a coated tongue or a poor complexion.

T. J. Evans has the exclusive agency for this great catarrh remedy and tissue builder, Vin Hepatica in Newark and his drug store is the only place it can be obtained.

INTERCHANGE OF BUSINESS

Between Newark and Brownsville Telephone Companies Objected To by Gratiot Company.

Attorneys James R. Fitzgibbon and Edward Kibler Sr. appeared before the state commission of public service in Columbus this afternoon.

The Newark Telephone Company represented by Mr. Kibler, seeks approval of the commission for an interchange of business with the Brownsville Telephone Company which is represented by Mr. Fitzgibbon.

To this Attorneys Winn and Best of Zanesville objected on behalf of the Gratiot Telephone Company.

HAVE LOCATED NEW OIL WELL

Granville, O., Feb. 14.—The Heisey company has driven a stake for an oil well on the William E. Swartz farm better known as the Allen farm, in Hopewell township. The farm consists of 82 acres and joins a farm owned by County Recorder J. M. Farmer. There are some good oil wells in this district, but none however, has been drilled on these farms. The Swartz farm is advertised to be sold at sheriff's sale at the court house at 10:30 a. m. Saturday. Mr. Swartz formerly lived in Granville township and made his home with Mr. Wesley Robert on North street.

AVOID DANGEROUS OPERATIONS FOR APPENDICITIS, GALL STONES AND STOMACH TROUBLE

One Dose of Mayr's Wonderful Stomach Remedy Will Bring Quick Relief and Convince You of a Cure.

If you suffer with Stomach, Liver and Intestinal Ailments, Gastritis, Indigestion, Dyspepsia, Frequent Gas and the Heart, Sour Stomach, Flatulency, After Eating, Nervousness, Dizziness, Sick Headache, Fainting Spells, Constipation, Congested and Tired Liver, Yellow Jaundice, Apert, Gravel, and Gall Stones, obtain a bottle of this Wonderful Remedy and put it to a test at once.

AVOID THE KNIFE.

One does not positively prove his great powers to cure. Over one hundred thousand sufferers have taken it, some had undergone dangerous surgical operations with but temporary relief, who now state that Mayr's Wonderful Stomach Remedy completely cured them. It is the most widely known and successful remedy for all Stomach, Liver and Intestinal ailments.

ESSENTIALS IN ALFALFA PRODUCTION

Columbus, Feb. 13.—"Drainage, lime, humus and inoculation."

"These are the four essentials in alfalfa production," claims Prof. A. G. McCall, agronomist at the college of agriculture, Ohio State University, in his advocacy of the crop for Ohio conditions.

"You can grow alfalfa almost anywhere in Ohio if you prepare the soil properly for it. It isn't so much a question of the soil, as making the conditions favorable for growth. Put tile in, as a first step, and you will have done much to make the collection of nitrogen from the air possible, the lining of the soil carrying the process a step further. The lime will permit the bacterial growth in the soil, and prepare it for the development of humus and proper inoculation."

The soil can be inoculated by the transferring of soil from a field already growing alfalfa or sweet clover. This may be drilled or sowed broadcast, at the rate of two or three hundred pounds per acre. If it is to be drilled, however, it should be dried out in a shady place, so that the sunlight will not kill the bacteria contained in the inoculating soil. If sowed broadcast, the operations should be carried on on a cloudy day, and the soil harrowed immediately.

"Prepare your seed bed carefully," says Prof. McCall. "This is necessary as alfalfa is very delicate during its first year, and very susceptible to weedy growths. Keep the weeds out, or your stand will be a failure. After the crop is once established, it will prove hardy, but will have to be cultivated for the elimination of weeds from year to year."

The University authority suggests that sowing may be done either in the spring with a nurse crop, or in the fall. Either works advantageously. Seeding at the rate of fifteen to eighteen pounds per acre is usually sufficient to insure a good stand.

"Alfalfa is one-half richer than clover in protein," he claims, "and if properly grown, will show marvelous profits for the farmer. This has been demonstrated in other states, and there is no reason why Ohio farmers should not have the benefit of good alfalfa yields. Nearly any county in the state will be found available if the underlying principles are observed. If only one of the four essentials is omitted, however, the crop will not be successful."

WHAT IS VINOL?

About Which We Hear So Much? Our Druggist Tells You.

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal curative elements of the cod's liver could be separated from the useless oil or grease. The oil which has no medicinal value is thrown away, but the healing, curative properties are blended with tonic iron and a mild medicinal wine which makes Vinol, thus combining in one medicine the two most world famed tonics.

Vinol is not a secret medicine as its ingredients are printed on every bottle, and in all cases where the healing, curative influence of cod liver oil, or the blood building strengthening influence of tonic iron is needed, Vinol gives immediate benefit, for it is easily assimilated and acceptable to the weakest stomach.

For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unexcelled. We will return your money if it fails.

VICE PROMOTION IS AWARDED TO GRANVILLE BOY

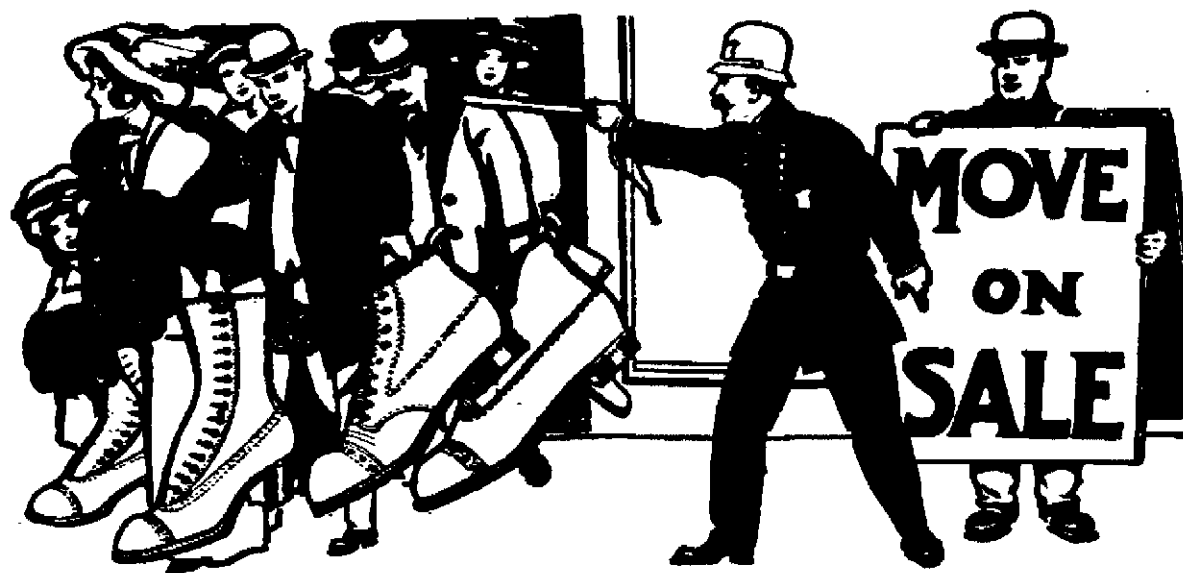

Granville, Feb. 14.—Mr. Fred Haney left Friday morning for Toledo where he will enter the freight office of the Toledo and Ohio Central railroad. Mr. Haney has been employed at the Granville office two years, where his diligence and efficient work attracted the attention of the office of the road, the result of which he was promoted. He is making rapid progress in the railroad business and his many friends are pleased to see him go to the front.

BOYS' MEETING SUNDAY AT 2 P. M.

Three hundred and forty-one boys attended the boys' meeting on Sunday, which was addressed by Superintendent Hawkins. He gave the boys a plain and practical talk, telling them some stories of boys whom he knew that had made a success of life, and some also who had made a failure, showing the reasons for the success and failure.

Such talks as these will help to mold the lives of boys. Next Sunday the meeting will be addressed by Prof. H. F. Moninger of the High schools. His subject will be "The Differences Between Success and Failure."

MEXICAN WAR

(Continued from Page One.)

eral had an almost miraculous escape from death.

In all seven shells tore through the walls. The first two crashed through the reading room across the greater length of the front on the second story. The others entered above the second story on the sides, which are not protected by buildings.

In addition to the shell fire the interior as well as the exterior of the American Club was perforated in scores of places by bullets from rifles and machine guns.

The shells which entered the reading room tore their way through the stone window casings, demolished a heavy leather chair and exploded with terrific force. Shrapnel was hurled in all directions, cutting the furniture to ribbons, ripping the floors and walls and puncturing in a score of places the portraits which hung about the room. The portrait most seriously damaged was that of President Madero.

President McKinley's is now set in a circle of holes, while the portrait of President Taft, hanging next, escaped with a single mark.

President-elect Wilson's features were riddled, while at the other end of the line of portraits balls found lodgment in plenty in the picture of another Democrat, Jefferson.

To the rear of this room is a large one used for billiards and pool. There many Americans were gathered, as the manager had forbidden the members to assemble in the front room, when a second series

of shells crashed through the story above.

Some of these shells entered almost on a line with the floor. From the fire which followed the greatest damage resulted. All but one shell exploded. This remains buried in the third wall which it encountered.

Portions of shrapnel shells were hurled through the floor above the billiard rooms among a group of Americans there. Four sleeping rooms on the fourth floor were wrecked. From one the entire wall was torn away.

The wrecking of this building is typical of the damage done many others in all parts of the city.

Just around the corner from the American Club, near Porters Hotel, R. M. Meredith Troy, N. Y., was injured. He was struck by shrapnel, suffering a scalp wound.

Madero's promise that the subjugation of Diaz would be swift and terrible, because the government had planned to surround him completely and then pound his positions with their heaviest guns, was in no way fulfilled. Only at times was the bombardment as heavy as the average of Wednesday, and that by the rebel guns.

The federal fire generally was slow, although since it came from various directions it was persistent.

On the whole the rebel commander's orders to his men were to conserve their fire, and little ammunition was wasted. No opportunity was lost, however, to throw shells at the troublesome batteries, effect machine guns and riflesmen, effectually prevented the near approach of the government troops. His greatest energies were displayed in the line of fire towards the palace, where his big guns scarred the walls

and doors of that ancient structure and cleared the big square in front of federal reserves.

The battle lasted all day, broken only at brief intervals for the most part by federal orders to cease firing when their officers were changing positions.

LEGISLATURE

(Continued from Page 1.)

declaring it practically would abolish the death penalty. This view was taken by Mr. Woodworth of Athens county, who declared, "I don't want to go on record as helping any black-headed murderer to escape." "I am pretty much of a believer in the Mosaic law," he continued, "and I believe a tooth should be paid for a tooth, an eye for an eye, a burning for a burning and a life for a life." Representative Scott of Harrison said he believed in the abolition of the death penalty, but he said it was up to the murderer alone to abolish it by not committing murder.

A new interpretation of the Golden Rule was offered by Mr. Cowan of Putnam county, a former guard at the penitentiary. In his speech against the passage of the bill, he said, "The Golden Rule is to do unto others as you would have others do unto you. I believe in doing the same thing unto the murderer as he does it unto some one." A laugh followed and then a member asked Mr. Cowan if he believed the death penalty operates to prevent the commission of crimes.

"Yes, when a man is electrocuted once, he'll never commit any more crimes," he answered.

One of the strongest supporters of the bill was Representative Read of Summit. He told the house that he would have much to say on the subject of extreme penalty when his joint resolution for the submission of a constitutional amendment to the voters is considered.

Sixty-nine representatives voted against the Kennedy bill and 46 favored it.

ONE DOSE MAKES INDIGESTION GO

Heartburn, Gas, Dyspepsia, and all Stomach Distress Ended With "Pape's Diapiesin."

You don't want a slow remedy when your stomach is bad or an uncertain one—or a harmful one—your stomach is too valuable; you must injure it with drastic drugs.

Pape's Diapiesin is noted for its speed in giving relief. It's harmless; it's certain; it's acting in regulating sick, soft, gassy stomachs. It's millions of cures in indigestion, dyspepsia, gas, and other stomach troubles. It's made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what you eat lays the lead, ferments, and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach all such distress vanishes. It's promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

committee, composed of members of the House and Senate, according to a report which was circulated. The members of the committee say that both the "wet" and "dry" committees have practically agreed upon a bill to be reported out and recommended to the House for passage.

Speaker Swain intimated that if such is the case debate upon the measure will not be prolonged on the floor of the House. The speaker declared that should any other appropriate legislation be offered at this session efforts will be made to kill it before it is recommended to a committee. In his message to the General Assembly Governor Cox stated that he wished the lawmakers to pass a suitable license code and then refuse to consider further temperance legislation.

Speaker Swain announced that he will call the chairman of all House committees together at once and ask them not to call committee meetings for Tuesday evenings or Thursday mornings, as sessions of the House probably will be held at these times hereafter.

By holding such extra sessions it is the hope of the administration supporters to complete the work on all administration measures in the proposed time limit.

OBITUARY

CHARLES HENDERSON.
Charles Henderson, aged 53 years, former B. & O. switchman, died on Thursday night at the home of his parents, Mr. and Mrs. Thompson Henderson, 430 Baltimore street, after an illness of stomach trouble.

Mr. Henderson had been a sufferer from this trouble for about two years. Following his resignation from the railroad company's service here, he went to Arkansas, where he was in the employ of the Fee Hardwood Lumber Company. He returned several months ago, quite ill and his condition continued to grow worse until death occurred. He is survived by his father and mother and the following brothers and sisters: Mrs. Anna Barabees and Mrs. Nettie Williams, of Newark; Mrs. Alpha Lloyd of Marion, Ind.; Messrs. Harvey and George Henderson, both of Newark. The deceased was a member of the East Main street U. B. church.

Funeral services will be held on Sunday afternoon at 2 o'clock at his late home in Baltimore street. Rev. Mr. Tyler officiating. Interment at Cedar Hill cemetery.

WALTER RULAND.
Walter Ruland, aged 61 years, formerly a modeler employed in Newark, died Thursday afternoon at the home of his son, Harry Ruland, at Pleasant Valley, near Zanesville, following an illness of lung trouble. He had been in poor health for ten weeks or more. About five weeks ago he began to decline rapidly. One brother, Zina Ruland, lives in Newark. His wife and several other children survive.

Always Have MUSTEROLE in the House

Every family should have a jar of MUSTEROLE at hand.

MRS. MARTHA WILSON.
Funeral services, conducted by Rev. Mr. Laughlin of the M. E. Church, were held at the Chapel at Cedar Hill cemetery Monday over the body of Mrs. Martha Wilson, who died at the home of her grandson, Fred M. Wilson in Columbus, O., on Feb. 8, at 9 a. m. She was born near Chatham, Aug. 30, 1829, was one of a family of twelve children, only one sister, Mrs. Margaret O'Connor, living at this time, and two grandsons, Fred M. and Harry Wilson, of Columbus, O., with a large number of relatives and friends to mourn her loss. She was a consistent member of the M. E. Church since early in life, and died in that faith, and often expressed herself as being ready to go Home and be at rest.

DR. BARNES HALF-SISTER.
Dr. B. F. Barnes will attend the funeral of his half-sister, Mrs. Nancy Smith, who died at the home of her daughter, Mrs. Mary Bordenheimer, of Coshocton, Thursday morning. The deceased was 89 years of age, and was born in Holmes County but had lived most of her life in Coshocton county. The funeral services will be held in the Warsaw M. E. Church at 11 o'clock, interment in Jefferson cemetery.

J. B. WEST'S FUNERAL.
The funeral of J. B. West, B. & O. switchman, who met a tragic death Tuesday night, was held at 12 o'clock today at his late home in South Fifth street. Rev. G. Bohon Schmidt officiated. The body was taken to Newcomertown at 1 o'clock for interment.

WON'T REOPEN CONFERENCE.
London, Feb. 14.—It is understood that the ambassadors in London have agreed that the port's note does not form a basis for the reopening of the peace negotiations. The port's note will be notified to this effect.

The Gold Dust Twins' Philosophy

DOES it occur to you, my friends, that woman's labor never ends—that is, if she's inclined to be a trifle stubborn constantly. Some housewives glory in the thought that battles won must be re-fought.

This jingle is for those who try to smile at toil and reason "Why," who will not let the household cares crush down life's other glad affairs. You'll find, where helps to minimize the number of back-aches and sighs.

The Gold Dust Twins forever toil, with dirt and trouble as a foil. They start each morning, at the top, and only after night-fall stop.

First Aid to The Housewife

Mrs. Smith or Brown thus reason, in a certain town, that Gold Dust helps to minimize the number of back-aches and sighs.

Opportunity is Knocking at Your Door

Theirs is to DO if NOT to DIE—Theirs is to never question "why?" At kitchen tasks their talents shine; the floors they polish up are fine; in fact, no matter where they go they leave a spotless trail; and so, like sunshine, when the sky is grey they help to drive the clouds away.

Each grain of Gold Dust also shares in cleaning up the household wares; each mop it touches seals a bond, to make a mop a fairy wand; each brush or cloth holds regal sway in driving dirt's dull care away.
